

KPI-Middle East

Where Performance has Wings!

With headquarters in Jordan and offices in Saudi Arabia, and UAE, KPI – Middle East provides management consulting services and IT solutions that help and support companies to improve, monitor, and control their business practices.

With our consulting team, who's aided with the best tools, we will support your business through its path to success. Our roadmap comprehends Strategic Planning, Business Process Optimization, Business Process Automation, and Human Resources Management.

Whatever service you are considering, our methodology for business improvement addresses your business practices and their Key Performance Indicators – KPI's, since they are the best to give an insight about your business performance; how to define KPI's, measure them, analyze them, and then improve the business practices in relation to is where we excel.

Defining the necessary metrics and key performance indicators (KPI) is just one part of an organization's business-process optimization initiative. In practice, the usefulness of such measurements is limited without a way to distribute and present the information these metrics generate, so that those with a need to know can easily view and act on the findings.

Measuring your KPI's is one of our specialties, whether you follow a manual procedure or a complex automated system in place, we have the right tools as well as knowledge to monitor and control your business performance and verify whether your improvement initiatives have paid back their investments.

With the aid of the best in class Business Process Management, BPM, Platforms – ARIS, and the utilization of best practices; our consultants can help you analyze and improve your business processes, starting with business process strategy definition through process improvement or reengineering until implementation, where you can make the choice of having the implementation done by our team, or benefit from our implementation supervision services. In other words, leading the transformation starting from scratch till ending with operational business processes.

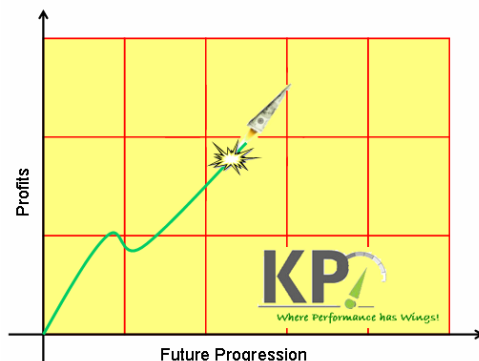

KPI-Middle East

Where Performance has Wings!

Building a business oriented culture that adopts high quality performance as its main norm is another aspect that we value here in KPI-Middle East. Guiding employees to achieve their desired business objectives is what our **Human Resources consulting services** aim to, where our consultants have the best knowledge of developing **organizational structure and business architecture** that best suits your industry and business needs.
